

WHO WE ARE

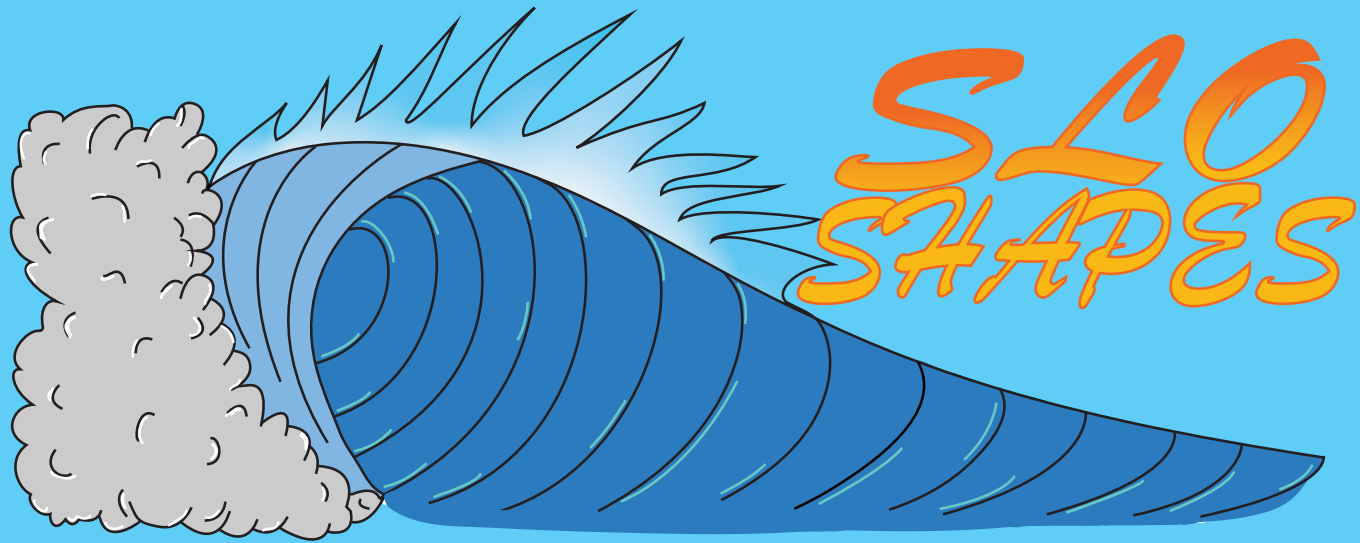

SLO Shapes is a surfboard shaping company based out of San Luis Obispo, California. In the heart of the central coast, SLOshapes caters to all types of boardriders for miles both north and south of San Luis Obispo.

SLO Shapes is a shaping collective made up of four friends that all share a love for the art of wave riding.

This collective began in a garage when I, the founder of SLO Shapes, had finally had enough. I could not find the right board for me. That's when I finally decided to shape my own board board.

That was 15 years ago, since then my friends and I have shaped almost 2,000 surfboards together.

Now we want to shape a board for you.

WHAT WE DO

We are artists at SLO Shapes, and respectively, we make art.

SLO Shapes has an expansive list of board models to choose from. With any of these models we can scale the dimensions for your exact size and weight.

See a model you love, but it just isn't quite thick enough? Or maybe you just want a different tail? We can make that happen.

We can make any board you can imagine. Come into the shop and walk us through your thought process.

Custom orders to be shipped out in 2-3 weeks.

WHERE WE DO IT
